ABOUT

Experienced Frontend Developer with over 7 years of experience in designing, developing, and maintaining web applications. Having a good experience in JavaScript, TypeScript, React, Tailwind, HTML and CSS, I can collaborate with cross-functional teams to deliver high-quality, user-friendly products. I have worked on both startup projects and enterprise applications across various industries, including web development and design, online marketplaces, and e-commerce. I'm looking for a challenging role where I can use my skills and experience to help a dynamic organization succeed.

KEY COMPETENCIES

| | | |
|---------------------------------|-------------------------------|---------------------------------|
| UI / UX - Front-End Development | Version Control | Agile Development Methodologies |
| Responsive Web Design | Critical thinking skills | Proactive and self-motivated |
| Component-Based Architecture | Problem-Solving and Debugging | Excelent organisational skills |

PROFESSIONAL EXPERIENCE

Creative Tim

Apr 2017 - Present

Web Developer

- Played a important role in launching over 30 products using technologies such as Tailwind, JavaScript, React, TypeScript, React Native, Bootstrap, Jekyll, Ruby, Ghost, SCSS, JQuery and Gulp.
- Created documentation for each product for a better implementation.
- Contributed to products utilised by over 2.5 million web developers globally.
- Built reusable components and front-end libraries for future use.
- Optimised components for maximum performance across diverse web-capable devices and browsers.
- Collaborated with backend developers to integrate user-facing elements with server-side logic.
- Implemented responsive design to ensure smooth user experience on mobile devices.
- Participated in code reviews and provided constructive feedback to peers.
- Stayed up-to-date with the latest industry trends and technologies to ensure best practices.
- Designed and developed user interfaces for web applications using React and TypeScript.
- Worked closely with UX/UI designers to create intuitive and visually appealing interfaces.
- I helped many clients with the onboarding of creative tim applications also technical sales & support.
- Conducted user testing and gathered feedback to improve user experience.
- Led a team of junior developers, providing mentorship and guidance.

Material Tailwind Framework

- Developed and maintained Material Tailwind, a front-end framework combining React, Tailwind CSS with Material Design principles.
 - Created a comprehensive set of pre-designed, customizable UI components for fast and consistent web development.
 - Regularly updated the framework to include new features, enhance performance, and address user feedback.
 - Implemented Material Tailwind in various projects, demonstrating its versatility and effectiveness in real-world applications.
 - Provided support and guidance to other developers for seamless adoption and integration.
-
